

Date: 02 April, 2021

Dear Women of the World,

I am writing to thank you once again for your generous \$2000 2020 WoW Displaced Women's Scholarship. I was very happy and appreciative to have been selected as the recipient of your scholarship in 2020.

I am a premedical major with an emphasis in physiology and anatomy. To me getting a second degree is important because it allows me to 1) get a specialty. 2) continuing education 3) learning new tricks, and lastly have the option to have my own autonomy in my future career. I plan to continue pursuing a career in psychiatry, upon graduating from Medical school. I am currently a senior with a semester left to complete my prerequisites for medical school and plan to graduate in the fall of 2021. After graduation, I will attend medical school to earn my doctorate degree. Thanks to you, I am one step closer to that goal of getting into medical school.

By awarding me the 2020 WoW Displaced Women's Scholarship, you lightened my financial burden, which allowed me in the fall of 2020 and spring 2021 semester to focus more on the most important aspect of school: learning and ensuring I get proper grades to make me competitive for my medical school applications.

Your generosity has again inspired me to help others and give back to the community by volunteering at local health clinics to ensure community members are getting vaccinated for Covid-19. Helping high school seniors file out the Fafsa application, and through future scholars of Africa continuing to provide workshops for the community on the importance of education

and helping youth apply for scholarships. I also hope one day I will be able to help even more students in our community achieve their goals just as you have helped me.

Sincerely,
