

To kindly donator,

My name is Itzel and graduated with a Bachelor of Arts in Linguistics and certificates in Teaching English as a Second Language, and Criminology & Corrections. I am currently working for the startup company, SignGlasses LLC, as a Customer Success Representative.

Firstly, I want to express my sincere gratitude to you for contributing to the Women of the World Displaced Women's Scholarship. I was also thrilled to learn of my selection for this honor and sincerely appreciate your support during 2019-2020. It was a huge honor to be able to finish my last year of university with this scholarship, being without this, I won't be able to finish until later this year or 2021.

This scholarship has increased my self-reliance from facing different challenges based on my DACA and the first generation. I worked multiple part-time jobs to afford my tuition and found a flexible time to finish my graduation requirement. It was also exhausting to apply for countless scholarships to help the expense for my tuition for four years. Now I graduated with debt-free, which is a huge accomplishment for the first generation, and these four years are worth the experience of struggling and seeking for the resource.

I am currently applying to the law school that provides a master's degree in fall 2021: The University of Texas at Austin for Master of Laws (LL.M), The University of Utah for Master of Legal Studies, and few others to pursue my education to become an advocate for the Deaf community in the legal system. I also want to advocate for people with DACA and the first generation to become successful like me.

Again, thank you for making a huge success in each women's education with this donation.

Sincerely,

Itzel
