

2021 Scholarship Recipient

Dear Women of the World Committee,

I am writing this letter to say an infinitive thank you to all of you for making the Women of the World's Scholarship possible and for giving me the chance to be a recipient. It was a big opportunity for me since it helped me to continue my education during a hard time when I was ready to give up. Now, I can see more closely to the dream to have a career and help my family and society. This Scholarship motives me to see that it is possible to get an education and that being an immigrant is not a barrier, I feel more confident and, now I am constantly trying to find a better job and, at the same time, I am searching for other scholarships that will help me to conclude my education, I will always be grateful to find opportunities like the one your foundation is providing to students. It makes me feel that I am not alone on the journey of accomplishing my educational goals. Having such economic support this semester helped me focus on my education and have a better academic performance. That allowed me to be more prepared to help and mentor my classmates. I am currently supporting women in my community in the area of translation and interpretation helping to facilitate communication between Spanish and English speakers and I know that in a not distant future, I will continue giving back, even more to society putting into practice my knowledge and preparation acquired in this degree. Your generosity cheers me up to continue helping more people.

Sincerely,

Karen Marin
